What families need to do at tax time

You can use our tax time tool if you got Family Tax Benefit, Child Care Subsidy or had a child support assessment in the 2023-2024 financial year.

If you got Family Tax Benefit (FTB) or Child Care Subsidy (CCS) between 1 July 2023 to 30 June 2024, you need to confirm your income. If you had a partner during this time, they'll need to do this as well.

At the end of each financial year, we'll compare your income estimate with your actual income. This is how we check you got the right amount. This is called balancing. Most families need to do something before we can
